IS IT RECKLESSNESS?

What can the Board of Pardons be thinking of? They have turned loose upon this community some of the worst men in the prison. If any rule guides their conduct it is impossible to see it, and it looks as if caprice or influence was all that governed their action. There is no economy in turning these rough characters loose, for it costs money to convict them again, and they nearly all commit crimes as soon as they have the opportunity. The Board is endangering the lives and property of citizens of the State by their reckless use of the pardoning power.

EDITORIAL NOTES.

The Nevada *Transcript* wants to see young men take a part in politics, and gives many good reasons why they should stand in and assist in the affairs of State and county. Old politicians sometimes object to giving a young man a chance to show what he can do for fear of having the distance flag dropped in their own faces. Let them have a voice in the Conventions and they will do the work well.

The *Footlight* says Major William Garrard is now accused of being the Democratic "dark horse" for the Gubernatorial nomination. The GAZETTE does not believe Major Garrard will allow his name to be presented to the Convention, but there is one thing certain, the Democrats could not find a better man in their party than Mr. Garrard, and if he was elected Nevada would have a good Governor.

Thus does the *Hawkeye* make fun of our Navy: "One of the British officers in the fleet at Alexandria boarded the American Navy the other day, mistaking it for the steam launch that had been ordered to go ashore for some fresh meat. The officer apologized in the most gentlemanly manner when he discovered his mistake."

The Sacramento Republican County Convention gave a strong indorsement to Henry Edgertion for nomination as Congressman-at-large. It is now apparrent that Mr. Edgerton will enter the State Convention with extraordinary strength from northern California.

O. H. Gray, a Presidential Electoral candidate, is a Republican candidate for Lieutenant-Governor. Perhaps A. C. Cleveland will bring in the White Pine delegation for him solid. —*Carson Index.*

Yes, he might, but it is not at all likely that he will.

The Wooten "coal-dirt" burning engines, now being used in Pennsylvania, have proven a great success. The saving in moving coal over the old style of engine is nearly 18 per cent.

The Republicans of Ormsby have organized a Club and propose to put the best foot forward in the coming campaign. Ormsby is good for 200 majority.

The average rate of moving a ton of freight per mile on the Houston and Texas Central Road for the year 1881, was 2.71 cents.

Confounding His Enemies.

MILFORD, Lassen Co., Aug. 1, '82.

EDITOR GAZETTE: It has been reported that I did not use my device for unloading hay. I want to inform those who believe this report that this is the fourth crop that I have used it. That since its completion I have never unloaded a single load of hay or grain without it. It never has been out of repair or been one cent of expense. I am up with my stacks 30 feet and am going 10 feet higher. If there are any who doubt that I can put a load that high in five minutes let them come and see. My largest loads weigh 4,750 pounds, and the average is two tons. I have put up a new machine on my place and have two this season, as I wanted to stack in two places, and having convenient pine trees to erect it on it is cheaper to build two than one portable one on wheels. Probable Lynching.

CHICAGO, August 12.

A late Taylorsville special says the three men, Clements, Pettis and Montgomery, held to appear before the Grand Jury there to-day on a charge of ravishing Miss Bond, were taken out of the jail by a band of citizens. No further particulars.

LATER.

TAYLORVILLE, Ill., Aug. 12.

An immense crowd gathered around the jail, forced open the door and took out Montgomery, Clements and Pettis. They then put ropes around their necks and with threats and blows tried to make them confess, but without avail. They were then taken into the Court-House yard and stung up to the limb of a tree for about a minute then let down and extorted to confess, but all three protested their innocence. At this point a fire in town broke out, attracting a portion of the crowd, and Mr. Bond, the father of the outraged girl and the prosecuting attorney, appealed to the crowd to let the men stand their trial. This had a mollifying effect, and the men were returned to jail at 2:30 A. M.

The following additional particulars have been received:

A large and excited crowd remained about the jail until 9 o'clock, patiently and quietly waiting for the arrival of the organized party. As time went on and no party came the mob became impatient, and some cried, "Break the door in and fetch them out." A few men, pretty well intoxicated, moved around urging a general attack, and finally succeeded in getting the crowd so worked up that they walked up to the door of the jail, and boldly asked for the prisoners. The door, which had been opened from within, was closed in their faces and they fell back. In a short time they rallied sufficiently to make the attempt again, and after many efforts succeeded in working their way into the jail. They then passed up stairs to where the cells were. The Sheriff had abandoned the jail to the mob, who now went to work to get the prisoners out. After half an hour's work Pettis and John Montgomery were pulled out through an opening in the top of the cell and handed over to the mob. A bran new rope was suddenly produced and thrown around their necks. The most horrible language on the part of the mob was used. They endeavored by blows and threats, and every means known to them, to induce the wretches to confess. "I am innocent, gentleman," cried Pettis, in an agonized voice. "Hang me if you will, but I am innocent!"

"You lie, damn you! You know you did it," was yelled from the mob.

I know I am going to die, but as God is my Judge, I am innocent. Then there was a surge of the crowd on the small apartment and a cry: "Take them out and hang them." John Montgomery in the meantime was whining: "I am innocent. I don't know anything." The workers of the mob were searching for Clements, who could not be found. The cells were all opened by the use of crow bars, and then it was discovered Clements was not in jail. Then Pettis and Montgomery were dragged down stairs and into the jail yard, the crowd looking as they passed for a good tree. The trees were all saplings and the halter was made during the time which confession was sought to be extracted from Montgomery, the man still protested his innocence. "To the court house yard," someone cried, and other voices took it up. To the court house yard the mob then proceeded, threatening and bullying the prisoners on their way. Pettis repeated every minute: "I am innocent. I am innocent." The Court House yard was soon reached, and the crowd halted under a tall tree. Some nimble fellow climbed the tree and threw the end of the rope into a forked branch, when a dozen hands caught the loose end and John Montgomery was jerked off his feet just for trial, and left to hang for a minute or more, when he was lowered to the ground, and after regaining his breath, again proclaimed himself innocent. The infuriated mob subjected the wretches to the most brutal treatment for over an hour, until an alarm of fire and a bright light from town attracted their attention and called them away. The girl's father appeared at this time and asked that the prisoners be turned over to the authorities and be allowed to stand the trial. The whole affair is a disgrace to the town and State.

The Political Outlook.

NEW YORK, August 12.

The *Tribune's* Washington special says the officers of the Republican Congressional Committee report that a healthy interest in the coming political struggle is showing itself in every State, and nearly every Congressional District. The general demand for campaign documents is almost unprecedented so early. The committee has already issued twenty documents, and of these nearly 1,000,000 copies in all have been ordered printed. Last month alone nearly 200,000 copies in all were sent out, and from one Western State within the last few days has been received an order for $10,000 worth of documents.

In regard to the work of the Democratic Congressional Committe it is impossible to ascertain what, if anything, is being done, except the sending out of a good many speeches. A correspondent who met Rosecrans, chairman of the Executive Committee, at the Capitol to-day, asked him where the headquarters of the committee would be. "In Washington," was the reply. "We are sending out a good many documents from this building, but we have not yet really established ourselves."

"How soon will the committee be ready to begin an active canvass?"

"I think we shall have our work rounded up and in good condition by September 1," was the reply.

Asked to Resign.

WASHINGTON, August 11.

For two or three days past there has been a rumor in circulation here to the effect that the National Republican Committee had asked ex-Senator Dorsey, the present Secretary, to resign, and that a reply had been recieved from him stating that he did not consider it incumbent upon him to do so until the case now pending in court against him was settled one way or the other. This reply of Dorsey's is said to have called forth another demand for his resignation from the committee, coupled with a threat that if it was not acceded to at once a public demand would be made. A member of the committee said to-day there could be, of course, no demand for Mr. Dorsey's resignation without a meeting of the committee, and there had been no such meeting since its organization. It is true that a number of members of the committee had a meeting a short time ago, and considered the subject of the position of the committee relative to Dorsey. The question of asking his resignation was broached, but it was finally decided that Mr. Dorsey being upon trial and unconvicted of any offense, and further that he was not on trial by the committee, and that the committee had no right to take any steps in the matter until some result had been reached. It is safe to say that no such demand will be made on Dorsey, unless he should be proven guilty of some offense.

Indian Territory.

NEW YORK, August 12.

The *Times* editorially says a dispatch describes Eskminson as "one of the most treacherous and vindictive Indians in the Territory." This is merely a lying trick for ulterior purposes. The chieftain referred to was at one time actively engaged in hostilities against the whites. In 1871 he capitulated, and from that time to this he has been noted for his friendliness to the whites and for his peaceable disposition and behavior. Eskminson is a thrifty farmer, and his example and influence have been of great value in civilizing his Indian neighbors and associates. It is the custom of certain remote districts to get up Indian wars by circulating just such reports as the above mentioned. The settlers want quartermasters' contracts for hay, grain and transportation. They accuse a peaceable chief or a band as entertaining hostile purposes. An expedition is sent against the unsuspecting aborigines; resistance follows, and a small war is begun in earnest, but the alarmed settlers get contracts and greenbacks and prosperity returns for a season to the land of cactus and horned toads.

The Grain Crop.

CHICAGO, August 12.

The wheat harvest is now in progress in most sections, and the weather is good for harvest work. It is reported that the rains of the past few weeks, contrary to extensive forebodings, have done no great damage. In many parts of the West no grain has been injured at all. A large share of the Winter wheat is already harvested and the quality and yield is considerably above the average. The Spring wheat is being cut in some sections, while in others it will not be ready for the reaper for several days. Minnesota expects a large crop. The rains did considerable damage in Michigan, as the wheat was harvested and in the stack before the wet weather set in.

Left the Rail.

ST. PAUL, August 11.

A Washington special to the *Press-Dispatch* says a construction train, with 50 laborers, on the Minneapolis & St. Louis railroad, about four miles south of this city, last night jumped the track while running backward. A car containing laborers was overturned, seriously injuring 34 workmen. Several will probably die.

Railroad Collision.

WHITEHALL, N. Y., August 12.

The train, south-bound, for Lake George, came into collision with an extra engine near Putnam to-day noon. Both engines were wrecked, and the baggage and drawing-room cars went down the bank. No one was killed or badly injured on the passenger train. It has been learned that Leonard, the engineer on the extra engine was killed.

President Barrios Sailed.

NEW YORK, August 12.

The *World* says President Barrios, Dictator of Guatemala, sails to-day for Europe with his wife and some of the persons who constitute his suite, on board the steamer Celtic. Great mystery had been made of the Dictator's departure; chiefly, it is understood, because Barrios has been uneasy as to his personal safety ever since he reached New York, on account of the presence here of sundry exiled Guatemalans, who have personal wars and outrages to settle with him.

FOREIGN.

Ireland—Henry George's Arrest.

DUBLIN, August 12.

Simultaneously with the tidings of the liberation of Henry George, comes the announcement that S. J. Meany, the New York *Star* special correspondent in Ireland, has been arrested at Ennis, whither he went to visit his relatives, and whence he was about to make a tour of the distressed districts of Ireland, where evictions were being carried on at a wholesale rate. These arbitrary arrests are the first fruits of the Repression Act, and their manifest intention to intimidate American citizens from visiting Ireland. The Dublin Castle authorities think it not without reason that the Land League is supported chiefly by the moral and material aid received from the United States, and they are of the opinion that such assistance would be largely diminished if correspondents and agitators were discouraged from traveling in Ireland at present. Henry George was arrested, it is understood, at the express direction of Premier. No protest against his arrest or imprisonment was made to the Government through the American Consulate. One report states that when Gladstone heard of the arrest of George he was quite indignant, and ordered his instant release, and that he caused officers to be severely questioned as to their motives for taking him into custody. The spokesman for the officers replied: "The prisoner is a common rough-looking man, sir." The bearer of Government orders assured the officers that the Minister's anxiety to have the prisoner at once set free indicated that the Government deemed him a very uncommon person. "Which Government has he behind him?" asked one of the officers of another. "The British Government," was the reply of the dispatch bearer. Neither messenger nor officer had any idea of George's identity. They liberated him with much ceremony and he went his way quietly. The record of his arrest was made to read: "Arrested—Henry George, accused by the police of association with suspects."

After the Deluge.

LONDON August 12.

The *Times* says when the army of Arabi Pasha has been dispersed and its leaders brought to account for their misdeeds, we shall have to make sure the difficulty may not recur in a new form. Egypt will be in our hands. It will not be open to us to retire from the country and leave events to take their own course. This is the resolve of England, and when it becomes necessary to seek the sanction of other Powers for the result, a concert of Europe will be invoked in a sense very different from that with which we have lately been familiar.

WESTERN.

A Neighborhood Row.

SONORA, August 11.

About 6 o'clock on the 9th instant, on Mormon creek, near Mountain Brow, Sol Haslem shot and killed Samuel Brooks with a double-barreled shotgun loaded with buckshot. Haslem and Brooks were both married men, who lived a short distance apart, and have been enemies for a year. Wednesday evening last Brooks and Haslem had a quarrel; shortly after Brooks, who was slightly intoxicated, was going toward Haslem's house with a double-barreled shotgun in his hands, when Haslem called from his house and told Brooks not to cross the bridge or he would kill him. Brooks paid no attention, and when he crossed the bridge Haslem, who was standing inside of his house, fired one shot at him, taking effect in his face and breast. Brooks made one or two steps forward stooped and laid his gun down, and fell upon it and died in a few minutes. Reports differ as to who made the first threats. The Coroner held at inquest, and the verdict was unjustifiable homicide. The Deputy Sheriff searched Haslem's house but could not find his gun. Mrs. Haslem claims that he has not had a gun for a year.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest eminence on both sides of the Atlantic, as an invaluable Tonic and Restorative in cases of General Debility, Nervous Depression, Enfeebled Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a specific for their troubles. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and excites a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from lassitude and weariness, the result of disease, over-study, or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses other nourishment the Extract will prove an excellent substitute for food. It neither palls upon the appetite nor offends the taste.

DELICATE FEMALES, who suffer from the weaknesses of their sex, will derive lasting relief from its use. It improves the digestion, purifies the blood, stimulates the appetite, and revives the spirits.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative—and especially those who are inclined to Consumption—will find this preparation exactly suited to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the digestion of fat-producing foods, and its effect is invariably to give fullness and roundness to the female form, and robustness to the masculine frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from alcohol. SATURDAY ..... AUGUST 12, 1882

A Miner Falls 280 Feet.

At 8:30 o'clock yesterday morning Thomas Veale, a miner at the Combination shaft, fell from the cage into the sump. It appears that Veale got upon the cage in the south shaft at the 2400 station for the purpose of going to the surface. He rang the bell and started, but had proceeded but five feet when he rang the bell again to stop. The cage was immediately stopped, and some of the miners on the 2400 station near the shaft, hearing a noise as if someone had fallen, went to the cage and found it empty. Search was immediately made for the body, and in about two hours it was recovered from the sump, into which the unfortunate man had fallen. The deceased being alone on the cage no one in the mine can tell how the accident occurred, but the supposition is that immediately after starting from the station he grew faint and pulled the bell to stop, and then losing consciousness fell. The Combination shaft is down 2,680 feet, so that Veale must have fallen 280 feet before striking the water in the sump, which is about 39 feet in depth.

Washoe's Candidate.

This morning, says the *Tribune*, Mr. Alvaro Evans, of Washoe county, prominent candidate for Governor, and Mr. Geo. T. Marye, another outspoken candidate for the same office, accompanied by that very nice, smooth young gentleman, W. R. Chamberlain, of the Depot Hotel, Reno, came up from thence by the morning train. They met several other Governors at the depot, and an interchanging of sentiment took place. Mr. Evans says he is not the dark horse, for he has been forced into the field by his friends, and now he intends making the fight to the bitter end. The General is a cattle man, and when told that if he came into the fight he would be dubbed the Republican "Broad horns," he laughingly replied that if he were as successful as the former gentleman who bore that title, he would not feel ashamed of it.

A Long Journey for an Old Man.

An old gentleman from Humboldt county, California, on his way to Iowa, is camped near the residence of J. S. Shoemaker in the western addition. His outfit consists of a light wagon drawn by one horse, and loaded with everything necessary for the comforts of the trip across the continent, with a cow tied to the hind end of his wagon giving him plenty of fresh milk. He has been two months on the road, and expects to reach his destination before Winter. He is an excentric old fellow, and is evidently trying to make a reputation for himself. He is quite an admirer of the "wheelbarrow man," and enjoys talking about his long journey. Yesterday he had his cow shod as she was quite lame, and he did not want her to give out. He will roll out again in the morning and continue his weary journey the plains across.

A Bad Man Pardoned.

Thomas Beasley, who was pardoned out of the State Prison in April last, was arrested Thursday for using foul language to a State Prison guard in Carson. His trial came off yesterday and he was fined $30 by the Justice of the Peace. On hearing his sentence he remarked that he didn't give a damn for the Court, whereupon an additional fine of $10 was passed upon him. He repeated the remark, when another $10 was added to his fine. The *Bee* says when this last fine was given the prisoner made a break for District-Attorney Bartine to attack him, but was prevented by officers Stern and Corbett, who took the wrathy man to jail.

The End of a Bad Man.

The remains of the man found in the Stanislaus river, three miles above Ripon, on Tuesday night, were identified at the inquest Wednesday. The dead man's name is John W. Donovan, and he was a native of Florida and 39 years of age. He had been missing since April 23. Donovan was a desperado and an ex-convict well known in this State. He served two terms in the Nevada penitentiary, and was only pardoned out from serving a life sentence last January.

A. Vogeler & Co.

BALTIMORE, Md., August 5, 1882.

TO OUR FRIENDS AND PATRONS: It is our painful duty to inform you of the death of our Mr. Charles A. Vogeler, which occurred at his residence in this city at 5 o'clock this morning. Mr. Vogeler was taken ill at the close of the first week in July, and the disease, which was at first pronounced malaria, finally developed into a malignant type of typhoid fever, baffling the skill alike of physicians and nurses. Although but 31 years of age, he had been for the last eight years the managing partner of this house, and to his assiduous attention to business and well directed enterprise, we feel that its present prosperity and reputation are mainly due. While, of course, nothing has yet been definitely decided, it is the desire of the surviving partners to continue the business unchanged. Very respectfully,

A. VOGELER & Co.

Married.

W. R. Felter, son of Mr. and Mrs. James I. Felter, of Sacramento, was married Thursday evening to Miss Julia Bloomfield, a young lady from New Jersey. The ceremony was performed in the First Congregational Church, San Francisco, by the Rev. Mr. Burrowe. The church was filled by the many friends of the bride and groom from Sacramento, San Francisco and elsewhere, and the floral decorations were elegant and profuse. After the ceremony the sister of the bride, Mrs. J. H. F. Peck of San Francisco, gave a reception at her residence to the family and a few intimate friends. The bridesmaid was Miss Emma Felter, and the groomsman was Mr. James O. Roundtree of San Francisco. Mr. George Redding, Mr. Knowles, Mr. Buckbee and Mr. Kane were ushers. The presents received were numerous and beautiful.

A Cartridge in a Thrasher.

The Anaheim *Gazette* tells of a peculiar disaster which overtook a thrasher: Suddenly an explosion was heard, and flames shot out of the machine and speedily enveloped it. Before they were extinguished, the grain belt, straw carrier, derrick and derrick wagon, ropes, etc., and stack of grain were burned, inflicting a loss of about $500 on the machine. The value of the grain destroyed has not been learned. The cause of the accident was found to be a shotgun cartridge, which had been either maliciously or accidentally dropped into the straw, and when it was tossed into the thrasher it exploded upon reaching the cylinder, with the result stated.

The Brute Shut Up.

Jacob Spricket, charged with incest, on being arraigned for trial in Genoa Thursday, pleaded guilty to the charge and was sentenced by Judge King to four years' imprisonment. Sheriff Williams took the fiend yesterday and conveyed him to the State Prison.

Threshing Grain.

Big Meadows people are now having their grain threshed. Andrew Westfall has started up his new 20-mule power separator, and says he will thresh 30 tons of grain a day.

SAMPLE WHEAT.

A Man Gets a Big Crop in Washoe Without Irrigation.

L. B. Holcomb, who ranches down the Truckee canon, near Clark's station, has been trying the experiment of raising wheat without irrigation. He sowed six acres in February on a bench away above any ditch. To-day he brought in two samples of the crop. One of the selected heads he gave to H. A. Clawson the other is at the GAZETTE office. Both have heavy, full heads. The sample left here was not selected, but is about an average. The straws are about 36 inches long and the heads three and four. He says he will have 40 bushels to the acre. He says any one who sows in October or November will be surer of a crop than the farmers of the San Joaquin. The importance of this matter is easily seen. If Washoe county can raise crops it will take an immense step forward.

PERSONALS.

The Virginia & Truckee Railroad Company have given the Knights of Pythias half rates for the purpose of allowing delegates to attend the Grand Lodge at Carson.

Railroad War.

A very quiet, but exceeding earnest struggle is going on between the Union and Central Pacific roads. The Union Pacific is trying to monopolize the trade of Montana as the Central Pacific does that of Nevada. They refuse to haul freight from Ogden north on their Utah Northern unless it is brought over the Union Pacific. The Ogden merchants tried to ship more freight north than the U. P. hauled in for them, so they discovered the trick and shut them off. The C. P. keeps Nevada's trade by charging back freight on everything that comes through from the East. If they get up a good big war over it Nevada may realize some benefit from it.

Hard to Please.

A San Francisco lady, who went to Sacramento some time ago to get "warmed up" by having the fogs and chills usually prevalent on the Cliff House road thawed out of her bones, was asked if she were satisfied with the mercury, which was climbing into the nineties, when the suggestion was made that if not satisfactory a little more steam might be turned on the next day, and she replied, "Run her up; heat is life. This is glorious." When the mercury reached 102 degs. in the coolest place to be found in the city she "squawked" and signified a willingness to return to the fog.

Thursday, at Agricultural Park, Sacramento, says the *Bee*, J. B. Haggin's promising two-year-old filly Nubia, sired by Leinster and out of Addie A., dropped dead. She was running about the lot kicking up her heels, and in some way strained herself, causing instant death. She was valued at $1,000 and was entered for several State Fair races.

CONTINUES TO TREAT successfully by Homeopathy every form of Special or Chronic Diseases without Mercury or Nauseous Drugs. Dr. Liebig's Invigorator is a positive and permanent cure for Seminal Weakness, Nervous and Physical Debility, Lost Manhood, Vital Exhaustion, and all the terrible results of abused nature, excesses and youthful follies. The Doctor will agree in writing to forfeit $1,000 for a case that he undertakes and fails to cure. The reason thousands can not get cured of Seminal Weakness and the above disease is owing to a complication called Prostatorrhea, which requires a special remedy. Dr. Liebig's Invigorator, No. 2, is a Special Cure for Prostatorrhea. Price of either Invigorator, $2 per bottle, or 6 bottles for $10. Sent to any address secretly covered from observation. Seminal Weakness and Prostatorrhea drain vitality from the body and cause numerous diseases that baffle ordinary medical treatment. If allowed to continue, the unnatural loss affects the vital organs, which causes destroying diseases. Consumption, Diabetes, Bright's Disease, Jaundice, Insanity, etc. Excesses, Non-use, Abuse, Inherited Weakness, Malnutrition, Spinal and Celebral Complaints bring in the above fatal diseases. Debility and Seminal Weakness obstruct the important and necessary acts of life and their enjoyments. Cures Guaranteed. Diseases of the Genito-urinary Organs, Kidney, Liver and Bladder a specialty. The many complaints and disease of women speedily cured; consultation at office or by letter, free and confidential.

SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin, milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.
